

U.S Department of Energy & SEC to host the Hydrogen Americas Summit in Washington D.C.

The U.S. Department of Energy (DOE) alongside the Sustainable Energy Council (SEC) are co-hosting the **Hydrogen Americas Summit**, taking place from **10-11 October** at the Omni Shoreham Hotel in Washington DC. The Summit will gather global government representatives, hydrogen and energy stakeholders, service providers and end-users to identify opportunities and get insights into the latest projects and policy developments that will be crucial to drive the Region's industry forward.

Hydrogen will be crucial to achieve a low-carbon energy mix. The recent signing of the Inflation Reduction Act as well as the Bipartisan Infrastructure Law, including unprecedented funding for the development of clean hydrogen hubs, has further cemented the key role that hydrogen will play in the region's energy transition.

The U.S. aims to reinforce its energy leadership and strengthen the economy through Hydrogen projects which could generate \$140 billion per year in revenue and create 700,000 jobs by 2030 according to the Fuel Cell and Hydrogen Energy Association (FCHEA).

Hon. Jennifer Granholm, the Secretary of Energy from the U.S. DOE said:

"I am delighted to invite companies and governments to Washington D.C. on October 10th and 11th for the Hydrogen Americas Summit which is co-hosted by the U.S. Department of Energy and the Sustainable Energy Council. This is going to be a tremendous opportunity to showcase new policies, new projects, convene decision makers and stakeholders and enthusiasts to help make the Americas a global leader on clean hydrogen." Dr Sunita Satyapal, Director, Hydrogen & Fuel Cell Technologies Office, Office of Energy Efficiency & Renewable Energy, and DOE Hydrogen Program Coordinator said:

"Now, collaboration and coordination are more critical than ever across government agencies and industry and research labs, academia, all communities to create a competitive and equitable and resilient clean energy economy. And ultimately our success or failure will know no boundaries. So, it's time for collaboration across sectors and across borders as we look to our neighbors in the Americas." The summit is sponsored by hydrogen pioneers leading current hydrogen projects world-wide. They will be presenting, showcasing innovative solutions and looking to establish cross-sector collaborations with organizations looking to transition into a net-zero energy systems. Sponsors include: **Air Products, Air Liquide, AP Ventures, Bloom Energy, Port of Rotterdam, LIFTE H2, SMA Sunbelt Energy, Linde, Port of Corpus Christi, bp, ABB, Siemens Energy, Compressed Gas Association, ZeroAvia, BorgWarner, Cummins, SGH2 Energy Global Corporation, Faurecia, CSIRO – DCCEEW and AHRN, Raven, Van Ness Feldman, Bomax, Hyzon, Heraeus Precious Metals and Molecular Products.**

Confirmed In-Person Speakers Include:

- **Hon. Jennifer Granholm**, Secretary of Energy, **U.S. Department of Energy**
- **H.E. Stuart R Young**, Minister of Energy and Energy Industries, **Government of Trinidad & Tobago**
- **Dr. Sunita Satyapal**, Director – Hydrogen & Fuel Cell Technologies Office, **U.S. Department of Energy**
- **Hon. Bruce Ralston**, Minister of Energy, Mines and Low-Carbon Innovation, **Government of British Columbia**
- **Jigar Shah**, Director, Loan Programs Office, **U.S. Department of Energy**
- **Seifi Ghasemi**, Chairman, President and Chief Executive Officer, **Air Products**
- **Rick Beuttel**, VP of Hydrogen Business, **Bloom Energy**
- **Michael J. Graff**, Chairman & CEO, **Air Liquide**
- **Dan Yankowski**, President, **Linde Gases North America**
- **Sean Strawbridge**, CEO, **Port of Corpus Christi Authority**
- **Tomeka McLeod**, VP Hydrogen, US, **bp**

Note to Editors:

About the U.S. Department of Energy

The mission of the Department of Energy is to ensure America's security and prosperity by addressing its energy, environmental, and nuclear challenges through transformative science and technology solutions. More information <https://www.energy.gov/>

About the Sustainable Energy Council

The Sustainable Energy Council is the world-leading business council, events producer and training provider for the sustainable energy and infrastructure industries. Our close relationships with 60+ Governments worldwide, as well as an extensive network of industry stakeholders, make us the trusted partner of choice for the global sustainable energy industry.
